# Operations Manual TAL-1100M/R

Manual Round Product Label Applicator

TAKE-A-LABEL

# TAL-1100MR

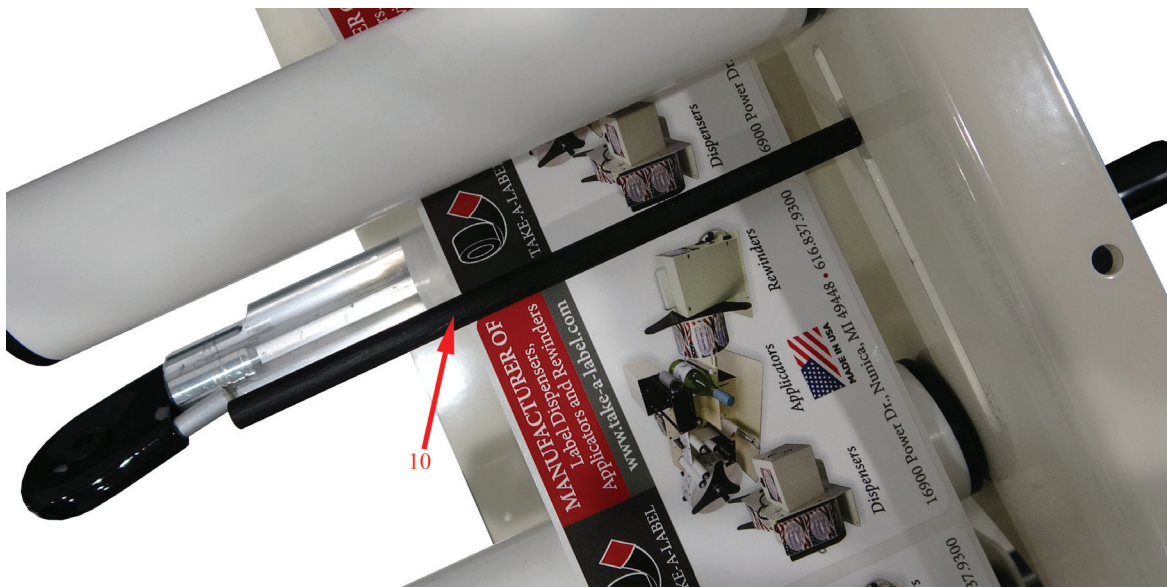

## SET UP

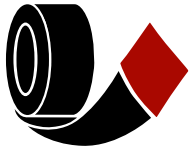

Helpful setup videos can be found on included USB or at [www.take-a-label.com](http://www.take-a-label.com)

1. Remove outer unwind disc (27) install new roll of labels and replace disc.
2. Pull label web under the idler roller (12A) and Label Stop Pointer (10) and out to the front of the applicator.
3. Rotate Application Brush (22) up to allow web clearance.
4. Pull web around the peel plate (3).
5. Pull web back and over roller (12B) and down to the waste wind shaft (25); attach the liner to the waste wind shaft using the Waste Wind clip (26).
6. Turn the operating handle (1) a few times to align label web.

### SETTING LABEL STOP POINTER:

1. The Label Stop Pointer (10) can be adjusted as needed to locate the gap between labels, certain information or graphics.
2. Loosen the thumb screw to move the Label Stop Pointer.
3. Re-tighten when desired location is found.

## PRODUCT CARRIAGE ADJUSTMENT

---

1. Loosen the thumb screws under the product support rollers (5)
2. Adjust rollers so your product is centered under the Peel Edge. The product should be setting on the rollers so it will roll easily. Keep the center of the bottle lined up with the peel edge. It is also often useful to have a slight downward angle to the carriage.
3. To raise or lower the product carriage, loosen the two product Carriage Ratchet Handles (8) on the main frame (2).
4. Raise the carriage to make a gap of approximately 1/16" between the bottom of the peel plate and the product.
5. Rotate Application Brush (22) down to help apply labels to product.
